Feedback on Jenny Lu

Nitin Jami (IDENTITY SECURITY)
To: Angelo Montes (IDENTITY SECURITY)

Hey Angelo,

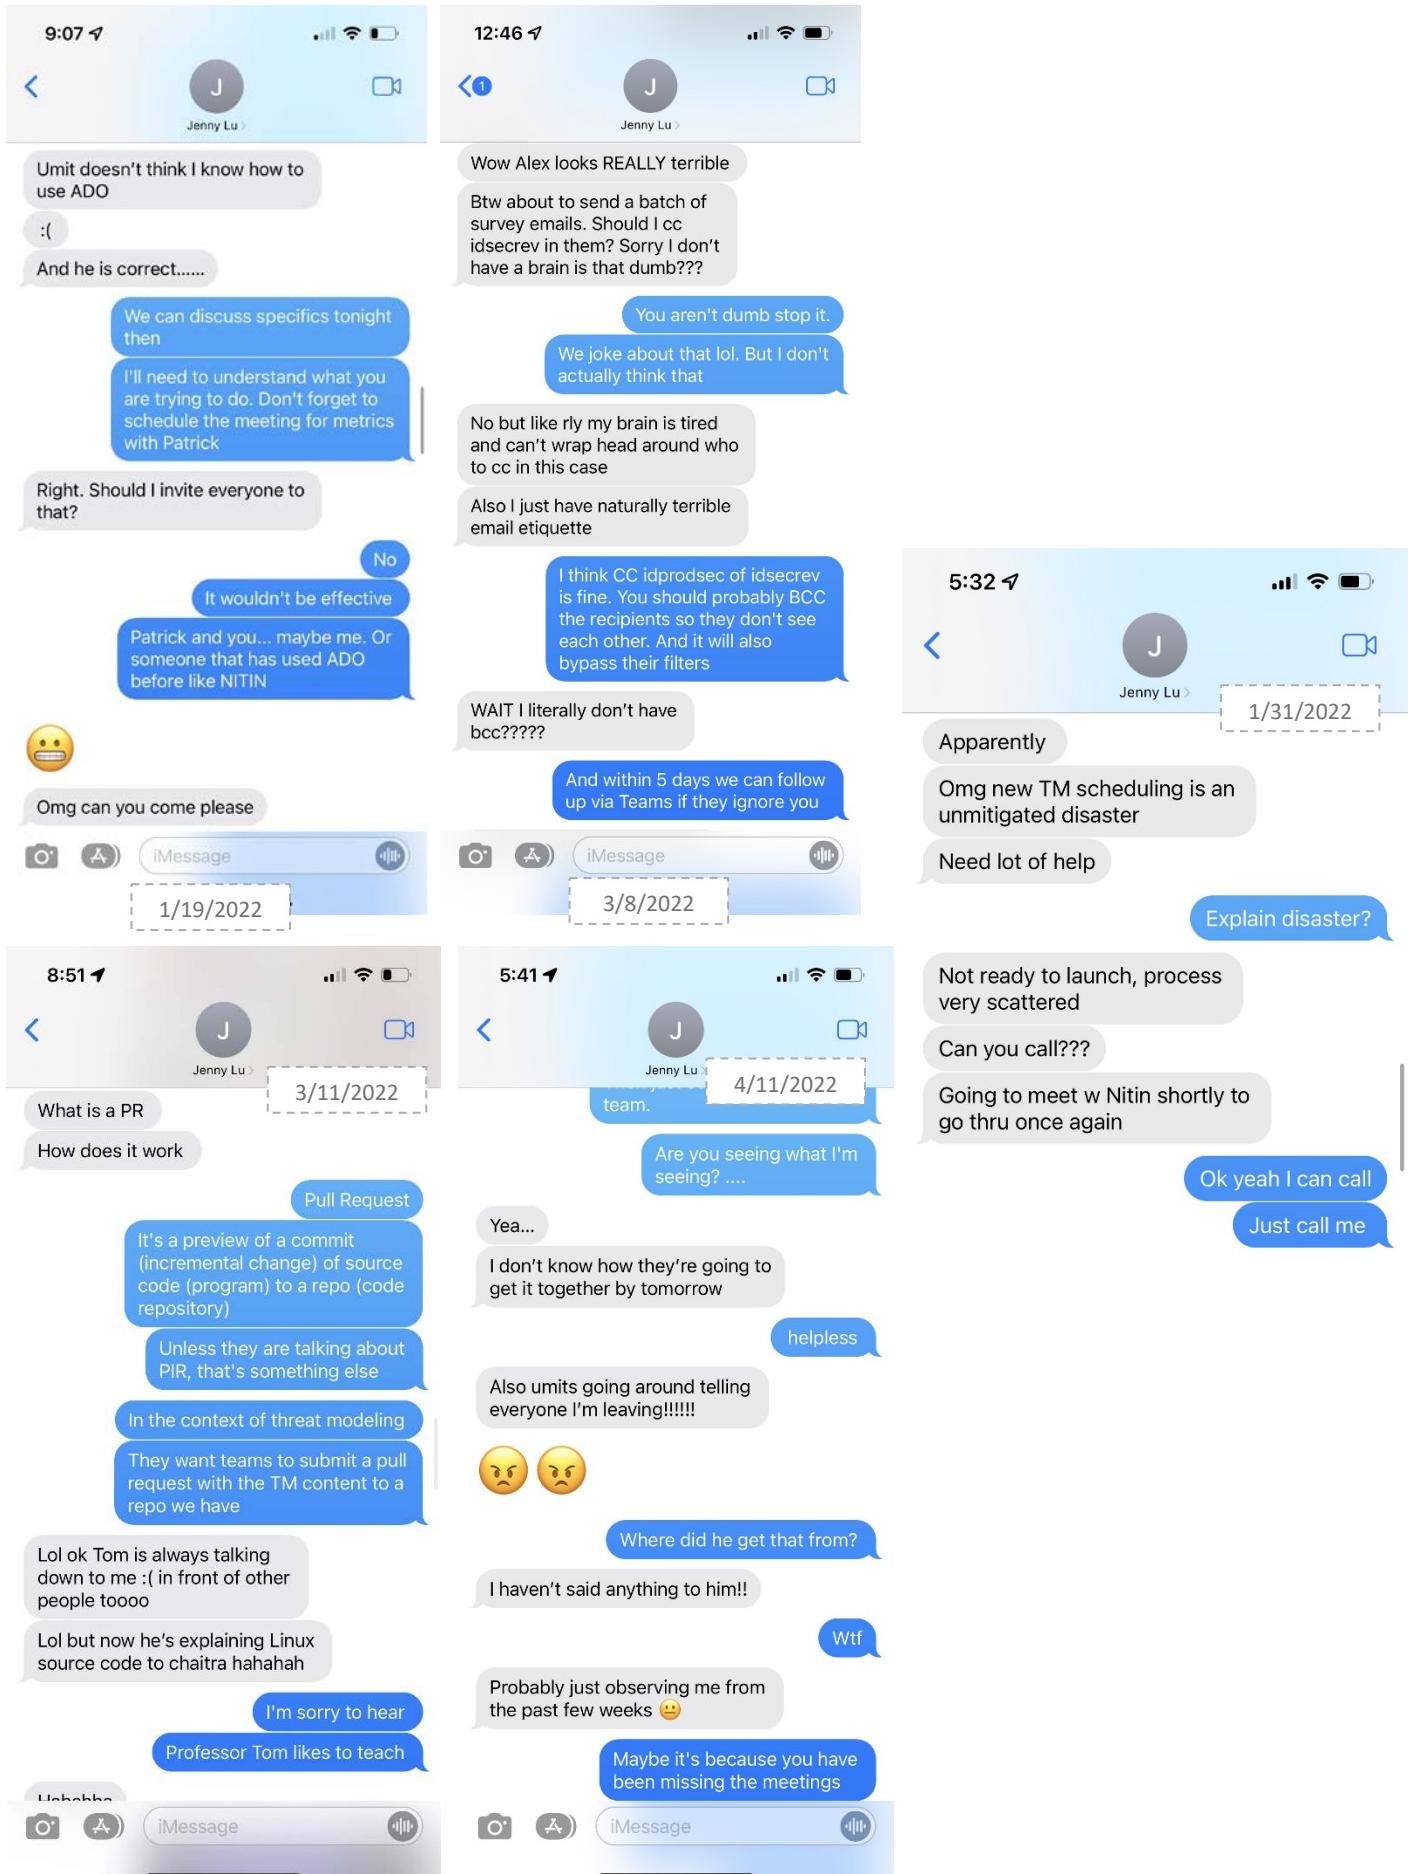

Just a few observations on Jenny Lu over the past couple of weeks. As a Project Manager, I'm afraid Jenny is unable to contribute directly to ease the operational work of this team as well as project management. My main concerns are:

- She is not skilled to do project management. Security may be new to her, but basic project management shouldn't be. She is unable to come up with doc templates, ADO work item follow ups and in general chasing after folks in getting status updates (wiki updates as an example).
- In a couple of meetings, I've asked her to take notes and come up with workstreams/owners as follow-ups. She couldn't do them, I've to end up spending extra hours in getting them down. So, anything that should ideally take 1 hour to finish becomes 2+ hours as I have to guide her on how to do project management.
- Lastly, Jenny makes a lot of mistakes with TM scheduling. The amount of clean up I have to do every week is getting out of hands at this point.

I'm sorry to say this but we misjudged her skill sets during interviews. I'll continue to share my observations on this topic.

Thanks,
Nitin Jami
